

Retap Wooden Lids

The Retap Bottle and Retap Carafe are simple, functional and elegant. The Retap Drinkware pays tribute to the Scandinavian design tradition and so does the Retap Oak Wood Lid and the Retap Walnut Wood Lid.

The curvy oak and walnut wooden lids are handcrafted and of excellent quality. The natural structures and complexity in the wood gives each lid a unique look. Inspired by nature, the lids offer an exclusive, sustainable and nostalgic touch to the Retap Drinkware and makes it look even more elegant and authentic.

The wooden lids finish the aesthetics of the Retap Bottle and Retap Carafe perfectly and look great in any interior setting. The lids have a loose fit and are easy to take off the bottle and carafe. This makes them ideal for conferences, in business settings, in restaurants or at home.

- Designed in Denmark
- Produced in Europe
- Lids available for all three bottle sizes and the carafe
- Bottle lid: 32 mm (height), oak 44 mm / walnut 42 mm, (max diameter), weight: 30 g
- Carafe lid: 15 mm (height), 65 mm (max diameter), weight: 35 g
- The wooden lids are not leakproof and do not seal tight
- The wooden lids are not dishwasher safe

Please notice that the Retap wooden lids have a decorative purpose and should not be stored in a refrigerator or similar cold surroundings. The natural structure and complexity of the wood can be affected by the humidity in the refrigerator and the wood may gather moisture and odors that can change the flavor of the water. We recommend a Retap TPE-lid for storage in the refrigerator.
